

## Release Note - 24.9.1

**Release Version Number: 24.9.1**

**Release Date (DD-MMM-YYYY): 28-Sep-2024**

**Product Name: Instasafe Secure Access (ISA)**

**Any Release Recommendations to End User or Customers: None**

### Feature Enhancements Released

#### 1. Support for adding Fully Qualified Domain Name (FQDN) Application in ISA Web Console

Admins can now seamlessly add and manage applications using their FQDN in the ISA Web Console. The web application will be accessible via the gateway.

This feature enhances control over domain-based application access and management, aligning with best practices for secure and scalable network environments.

#### 2. Specify Authentication Type during User Bulk Upload

The Authentication Type has been added to the CSV file for bulk user uploads. Admins can now specify the authentication type as 'Password + Cert' or 'Cert only.'

### Bugs Fixed

#### 1. Intermittently Application Groups don't load information on Edit

Every time an Application Group is edited, all data, including IP addresses, are loaded consistently.

Severity: Medium
