

Zero Trust Application Access Release Notes

This document is the release notes for InstaSafe Zero Trust Application Access (ZTAA) features to be released on 29th November 2025. This document contains information on enhancements to Console which include feature enhancements and bugs resolved.

General Notes

1. Minor modifications and bug fixes not significantly affecting the user experience are not a part of the release notes.

Major Enhancements

Component	Enhancements
Console	- Auth Profile Ordering: Default Auth Profile is now pinned to the top, with other profiles sorted normally below it. - Policy Expiry Message: Added a clear expiration message below the “Policy Expire Date” field whenever a policy profile has expired. - Record Count Display: Added a visible record count on all paginated screens, shown near the ‘Next Page’ button, updating dynamically as users navigate pages. - Bulk Policy Management: Added support for activating, deactivating, or deleting multiple Endpoint Policies at once, restricted to policies belonging to the authenticated tenant and partner. - Mobile OTP UI Fix: Resolved an issue where OTP digits on the mobile SSO authentication screen were partially hidden or misaligned, ensuring users can enter codes accurately.

- | | |
|--|---|
| | <ul style="list-style-type: none">- Profile Duplication: Introduced a “FROM COPY...” button for quickly cloning existing AD Auth Profiles, with fallback to “ADD NEW” when no previous profiles exist. |
|--|---|
