

# ZTAA Release Notes 25<sup>th</sup> Aug, 2021

This document serves as the release notes for the Instasafe Zero Trust Application Access (ZTAA) Client slated for a rollout on 25th August, 2021. The document contains information about improvements and upgrades made to the ZTAA Client bearing version 4.6.17 as well as the Web Portal, which include Feature Enhancements, Bugs resolved, etc. In case of discrepancies between the information provided in the Release Notes and the Product Documentation, the information in the Release Notes is to be assumed to be correct.

## General Notes

1. Minor modifications and Bug Fixes not significantly affecting the User experience are not a part of the release notes
2. Multiple bug fixes or enhancements relating to a particular feature may not be separately featured in release notes

## Noteworthy Changes in the ZTAA Solution

- User provisioning via AzureAD
- AzureAD as an IdP for SSO to O365
- Password management for locally provisioned users
- Active Directory sync via pre-defined Gateways

## Major Enhancements
